PROFESSIONAL SUMMARY

Frontend Developer with 4+ years of experience building production applications with React, Next.js, and TypeScript. Bachelor's degree in Software and Information Engineering. Delivered projects across SaaS, fintech, and business automation. Hands-on experience deploying scalable applications with Vercel and Netlify. Comfortable picking up new domains quickly and committed to clean, maintainable code. Available for remote work with flexible time zone overlap.

SKILLS

React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Redux, Tailwind CSS, REST APIs, Jest, Cypress, Git / GitHub, Vercel, Netlify

WORK EXPERIENCE

- React Frontend Developer — Stealth Startup (fintech, NDA)**

Aug 2025 – Present

 - Developed and delivered robust frontend solutions with a focus on scalability, performance, and code quality, contributing to continuous improvements in product stability and user experience.
 - Built and maintained reusable component libraries, accelerating development efficiency and ensuring consistency across multiple features and projects.
 - Drove UX and performance optimizations, improving responsiveness and reducing load times, leading to higher user engagement and retention.
- Frontend Developer — TokenFlow**

Apr 2024 – Aug 2025

 - Maintained high code quality and system reliability through structured code reviews and thorough unit and integration testing with Jest and Cypress.
 - Developed and optimized 30+ reusable UI components while collaborating with cross-functional teams to deliver custom smart contract solutions.
 - Led UX enhancements that streamlined user flows and cut page load times by 30%, meaningfully improving overall product usability.
- Frontend Engineer — ScaleRoad**

Nov 2022 – Apr 2024

 - Implemented frontend logic for subscription and usage-based billing flows, including invoice display, upgrade/downgrade paths, and failed payment handling.
 - Improved checkout UX by reducing the number of steps and adding inline validation, lowering abandoned transactions.
 - Built reusable billing dashboard components that were later reused across other parts of the platform.
- Freelance Web Developer — Self-employed — Novi Sad, Serbia**

Jul 2020 – Nov 2022

 - Delivered 25+ production-grade web applications using React, Next.js, and TypeScript, with optimized architecture and responsive design that lifted site performance by as much as 30%.
 - Translated client requirements into scalable, user-focused interfaces, with many clients returning for follow-up projects and long-term collaboration.
